

### CÉRET

Travelling through Céret means discovering a city marked by the history and imprint of Catalan culture and traditions echoing with a heritage preserved through the centuries.

Céret has always been a source of inspiration for the greatest masters of Modern Art, as well as the greatest artists of Contemporary Art. You can find their works at the Modern Art Museum, a museum of European scale.

Céret takes advantage of its wonderful location between sea and mountain to offer Cérétans and tourists a multitude of outdoor activities. Hiking and mountain biking adapted to all levels, including paragliding on the tops of Céret, bungee jumping or canyoning in the Canyon du Gour du Anelles.

### LE VENTOUS

The hillsides of the Ventous, held on by old dry stone walls, with an exceptional exposure, were once mainly dedicated to the cultivation of cherries (the first cherries of France because of its earliness) and the vineyards. For many generations, Ceretan families have cultivated on this steep terrain which is difficult to exploit. During this walk, a walk on the gentle slopes without major difficulty, a heady fragrance will flare your nostrils.
